

Modula is a company, specialized in the processing of plastic sheets, capable of manufacturing both single components as well as finished products, always meeting the costumers needs and using the most suitable transformation process.

The company proficiency allows satisfying the even more complicated client's requests and assures the costumers to get finished products, ready for assembling and for selling.

The constant evolution of Modula and its ability to fulfill complex projects in very short times, starting from 3D data, have brought to the collaboration with important industrial groups.
